PROFESSIONAL STATEMENT

As a dedicated and ambitious second-year CyberSecurity and Forensics undergraduate student at Edinburgh Napier University, I possess a strong interest in programming, ethical hacking, reverse engineering and web development. I am highly motivated to expand my knowledge in the cyberspace through various side projects and am currently seeking a summer internship opportunity to utilize my technical and soft skills to support a company's mission. I am well-prepared for an internship and eager to take the next step in my career.

EDUCATION

Sep 2021 — Present

BEng (Hons) CyberSec & Forensics, Napier University

Edinburgh

- Achieved first class for all subjects in first year.
- Valued member of ENUSEC Computing and the Bouldering Society.

Second Year Modules

- Web Technologies
- Digital Forensics
- Databases and SQL
- Systems and Services
- Computing Networking
- Programming (Python)

May 2012 — May 2018

Scottish Highers, Douglas Ewart High School

Newton Stewart

- Achieved highers alongside a level 6 in Cyber Security.

AWARDS AND RECOGNITION

CISCO CCNAv7: Introduction to Networks

- I acquired my CCNA Networks Introduction certificate in my first year of study, giving me a solid foundation in understanding networking concepts and the ability to apply the OSI model to real-world communication scenarios.

CISCO Networking Essentials

- Obtained an introductory certification before starting CCNA to gain underlying knowledge that I used as building blocks when learning new information.

HackTheBox and TryHackMe

- Active user of HTB and THM where I put my ethical hacking skills into practice and strengthen my abilities on challenge questions. I worked for leader-board position on TryHackMe gaining a position of top 1% globally as well as top #589 on HackTheBox.

Immersive Labs

- A learning platform suggested by our lecturer that provides material on all computing related topics, and completed all accessible material provided to me.
